# REAKTOR | Rentals

1,200 m<sup>2</sup> for the Arts and Your Events

**RENTALS**

The centrepiece of REAKTOR consists of three halls from different historical building phases. With its timeless qualities, the architecture of the former event establishment still offers ideal spaces for the activities of cultural creators, symposia or corporations today.

**ARCHITECTURAL QUALITIES**

The three connected main halls of REAKTOR and their adjoining spaces offer a total of 1,200 m<sup>2</sup> for exhibitions, film shootings, readings, presentations, congresses, symposia and many other forms of usage. The spaces at REAKTOR are valued especially by users for their generous spatial flexibility, the illumination with natural daylight via the main hall's clerestories, and their historical ambiance. The careful restoration will maintain the historical character of the space while significantly improving the infrastructure available for events. This will enable multiple usages, including in particular a cinema with flexible seating which may also be used for presentations.

**FORMER EVENTS**

The many forms of interim usage so far reflect the diversity of the event location. Since 2012, these include the following uses of the premises:

The opening party of the Austria-wide 2012 Festival of Architecture |  
The Festival centre of the 2012 Vienna Design Week | The Global Social Business Summit of the Nobel Prize winner Muhammed Yunus | The last World's Fair | The final presentation of "Buchpiloten" | The Conference on Poverty | Popular location for productions of ORF and other TV formats, music videos, short film projects and feature films | Readings and concerts by internationally renowned writers and artists | Large-scale presentations by successful businesses

## ACOUSTIC EMISSIONS

Due to its specific architectural characteristics and its location in the middle of a residential area, acoustic emissions must be monitored carefully during any event. Events that extend past 10 pm are limited to two of the halls; clubbing or events with extraordinarily high levels of noise cannot take place at REAKTOR.

## LOCATION & GETTING THERE

*Parking, Public Transportation*

On the border of Ottakring, REAKTOR is only a five-minute walk from the lively Yppenplatz. Located between the tram lines 43 and 44 and not far from the subway line 6, it is well-connected to the public transportation network of the City of Vienna. An APCOA parking lot is located in the immediate vicinity, on Ottakringer Straße; a Contipark underground garage can be found on Jörgerstraße.

## RENTAL CONDITIONS

Daily Rate 4,800 €

Cultural Rate (50%) 2,400 €

Days for setup or striking will be billed at 50% of the relevant daily rate.

Fees for cleaning, technicians and furniture must be negotiated individually, depending on the nature of the event.

The REAKTOR Team will be happy to answer your questions about the infrastructure of the building, individual rental models for your event and experience with various formats – please contact us at [kontakt@reaktor.art](mailto:kontakt@reaktor.art).
